A Word to American Fathers. Julien Hawthorne, in North American Re-

You may fancy that it is a privilege to your boy to have you for a father, but it is at least as much a privilege to you to have him for a son, provided you are a father to him, and not a mere idle and vicious appendage. And that sort of appendage is precisely what a large percentage of American fathers are. It does not mend matters to say that you are fond of your children, and, in proof of it, to paw them and kiss them, give them toys and candy, picture books, circus tickets, skates and bicycles, or to scold them violently and unjustly when they happen to get upon your nerves or it your way.
